Discover the Essence of Greece at your own pace

Personalized, inclusive self-drive tour programs

WHY GREECE

Greece is a treasure-trove, evoking millennia of myths, legends and feats of civilisation and history - and fantastic nature. It is also renowned internationally for its beaches, its gentle climate, its light but hearty cuisine and its friendly and vibrant society.

One of the best ways to experience the Essence of Greece is to tread off the beaten path, with a receptive frame of mind. Be ready for the messages carried by the salty fragrance of the Aegean breeze, seek out the lonely, minuscule shrine on the remote mountain-side, accept the invitation for a simple meal under the olive tree by the friendly elderly peasant couple. Be ready to toil on the rocky, lofty mountain range but also to wander on the thyme-covered, beckoning hillock. Wake up early so as not to miss the rising sun reflected on our sea, its waves and ripples shining back the light and playfully synthesizing a zillion small dawns which will light your mind.

It is only then, through this mosaic of such simple yet rich experiences, that the Essence of Greece will slowly come out and welcome you.

Our *personalized, inclusive self-drive concept* of how to best explore the Essence of Greece

To make this all possible, our specialist team in Greece discusses with you your interests, preferences and requirements. These iterations allow us to define and refine the best self-drive itineraries, tailor-made for you to choose from. We then make all the arrangements - car rental, accommodation selection and reservation, archaeological site guides if required and so on.

All you have to do is select one of suggested itineraries: the rest we will organize on your behalf, thus offering a hassle-free, fantastic experience full of memories to take home and cherish.

After all this is what the perfect vacation is all about!

TESTIMONIALS

"Fantastic Self-Drive Tour"

Because of Eric, planning our trip to Greece was fun rather than stressful, with Eric taking our general travel style and "need to see" destinations and then suggesting itineraries for our 2-week trip. After picking our preferred itinerary, a few adjustments with input from ourselves and Eric, and many emails between the three of us, we were ready to head to Greece!

Petra Kellie, USA

"A memorable experience!"

...We visited all the places my friends were interested in, our guide was very knowledgeable, the hotels where we stayed could not have been better and Eric was an amazing tour leader. Everything ran smoothly and because of his love and enthusiasm for the land and the people, he made everyone fall in love with Greece. And made me even prouder of my roots than I was before!!! We all had a wonderful time!

Saisurya, India

"There is a difference between a tour and an experience. We had the last one."

It was in every aspect challenging and full of information. We have learned so much and coming back to Athens we will use your expertise once again."

Norbert Wohlfahrt, Germany

"Fantastic tour of the well known as well as lesser known sites, particularly in the Peloponnese, and including some travel off the beaten track. You think you know Greece, and then find that there is a whole new aspect to explore.

I can thoroughly recommend this company as a tour operator. They will bend over backwards to ensure your needs are met."

Silva Bassett, New Zealand
